Change the way you practice
... forever !

SpiderTech™ Education

- E-Learning Program
- Hands-On Clinically-Based Certification Training

Not only does SpiderTech™ make Kinesiology Taping easier to apply, we now make it easier to learn.

SpiderTech™ offers two innovative and evidence-led education courses that teach you how SpiderTech Kinesiology Tape can benefit your clinical outcomes; the SpiderTech E-Learning Program, and our hands-on clinically-based, 1 Day SpiderTech Level 1 Certification Training.

Both provide a solid foundation in the clinical and therapeutic efficacy of Kinesiology Taping, and teach you how the integration of our SpiderTech products into your practice can maximise your impact on relieving pain, restoring movement and improving clinical results.

SpiderTech™ E-Learning - Learn at your own pace for Free!

Introducing SpiderTech E-Learning, an education program that will teach you everything you wanted to know about kinesiology taping, but allows you to decide when and where you learn.

You will learn:

- How SpiderTech affects the central nervous system via sensory gating and neuromuscular plasticity
- A practical understanding of the neuroscience and physiology of pain and the affect on the musculoskeletal function
- Integration of SpiderTech into your therapeutic process

Our E-Learning program features:

- Expert design
- Detailed graphics and images
- Interactive format
- 3 modules packed full of clinically relevant information

Ideal for the practicing clinician that has limited time and still wants to learn about the framework and foundations of this progressive and effective form of therapy. Participants will have their progress evaluated through quizzes and tests, and each will be provided with their final results.

Enrol on-line at www.SpiderTechTape.com/training.html or, use the fax form on the back of this brochure. Remember, the E-Learning is offered free to all licensed healthcare professional and healthcare students in their last year of school.

SpiderTech™ Hands-On Clinically-Based Level 1 Certification Training

This comprehensive one day training and certification program provides participants a clinically based educational framework for learning Kinesiology taping:

Benefits Include:

- Online pre-course education on the mechanisms behind the effectiveness of kinesiology taping
- The ability to prepare before the hands-on class therefore maximising learning and retention
- Learning how to confidently apply all 17 SpiderTech™ Applications in a clinically based practical manner
- Providing you with the Clinical Relevance of each Application for everyday practice
- Review of Case Studies and the opportunity to "Ask the Expert"

Participants will gain access to our Online Learning site in order to provide the theoretical framework necessary to get the most out of the hands on class. Each participant will receive a full set of 17 SpiderTech™ pre-cut applications to be used in the course, plus course materials and text.

For pricing and enrolment, use the fax form on the back of this brochure, or visit www.SpiderTechTape.com.au
